I think the plan is to wait until we have settled the current pebble mine litigation and then have Ken Wagner (administrator's advisor for state and regional affairs, CC'd here) respond and possibly set up a visit with them as part of a larger visit to Alaska. I am happy to make that response to them joint from Ken and me, and to accompany him if that is desirable.

Good Morning, I see that you said we will respond to this. There is a due date of May 12. If we send a response via email or telephone, I just need a record that we responded to be able to close out this assignment. Thanks.

Good Morning, this was assigned to us. Should it be reassigned to Region 10, Office of Water or stay with us?
